

Polymerase Chain Reaction (PCR) Test Arrangements

Warmest greetings from Gili Lankanfushi, Maldives

In view of the current COVID-19 pandemic, your health and safety is of utmost importance to us. With various airlines and countries requiring a traveller to have a negative COVID-19 test result before boarding a flight or entry into the country, we will be providing a seamless process for guests to obtain PCR test result before departure.

Price of COVID-19 PCR Test:

Price	Inclusion
USD 110++ per test kit (Subject to all government taxes)	<ul style="list-style-type: none">✦ PCR swab sample collection will be facilitated by our resort doctor✦ Logistics and transport of collected samples to ADK hospital✦ Lab test with result documentation✦ Administration fees

Kindly note that COVID-19 PCR testing arrangements will be charged to guest account. All guests requiring a PCR Test upon departure should inform this at the time of booking.

Procedure:

- ✦ PCR screening shall be conducted 72-96 hours before departing Maldives, depending on requirements of individual airline companies
- ✦ Your Mr/Ms Friday will be in touch to schedule an appointment with our resort doctor for the swab sample to be taken
- ✦ Samples will be collected in the comforts and privacy of your villa by our resort doctor. Two samples will be collected: Oropharyngeal (through throat) and Nasopharyngeal (through nostril).
- ✦ Collected samples will be sent to ADK Hospital in Male for it to be processed
- ✦ The expected announcement of tests results will be within 48 hours upon receiving collected samples
- ✦ If PCR test results are positive, the resort team will brief you on the procedures according to the Health Protection Agency's (HPA) guidelines.
- ✦ In the event that PCR test result is inconclusive, a second test will be required. All costs of second PCR test will be charged to guest's account.
